The latest improvements from us:

\* The ability to see which images are in use (represented with a green tick on all the used images)!

*"I received my book yesterday. Thank you - it's beautiful and the recipient loved it!"  
/Miriam S, Brooklyn*

\* Preview of an image within the drag n' drop-feature. Click on an image and a thumbnail of the image will appear next to the cursor.

\* Drag an image over the image-template within the book and instantly see how the image will be rendered in the book!

\* Hide image-groups from other book projects in the same way as you do with the template-groups!

\* New and better images and examples of books on the website!

\* Graphical improvements all over the website!

\* The website is faster than before (drag n' drop templates without any delays)! To utilize Solentro's full potential pagination should be disabled when you are working on your book - activate pagination when you are ready to order your book!

[Solentro](#) will of course continue to improve the usability of the book making system, if you have any suggestions and/or ideas please let us know, thank you!
